TON COIN THE FOUNDATION

- Originally developed by the Telegram founders
- Managed by the TON Core Foundation
- Listed on all major global exchanges
- Ranked in the Top 25 on CoinMarketCap and CoinGecko

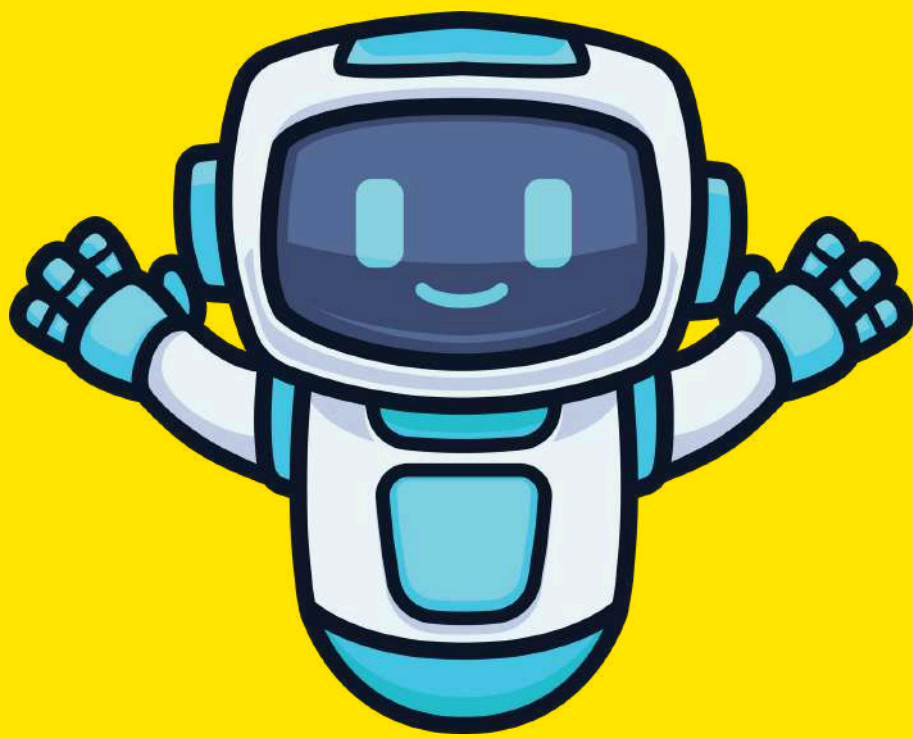

WHY?

WHY TON COIN?

- A non-EVM blockchain with a complete ecosystem of tools and applications
- Compared to Solana, TON remains underrated yet feature-rich
- Strong future potential with price expectations of \$20-\$25
- Rapid growth in tokens, applications, and community adoption
