TONCOIN ARBITRAGE TRADING & APY STAKING PROGRAM

An AI-based arbitrage trading program developed jointly by TONCOIN developers.

www.addton.io

Where Trading Happens

Where Trading Happens

All staked TONCOIN will be traded on DeDust and STON.fi decentralized exchanges.
Trades are executed by an AI-powered BOT for TON/USDC arbitrage.

Our mission

The system generates approximately Upto 2% daily by arbitrage income (Monday to Friday)

How Rewards Are Distributed

The generated income is distributed as:

1 | Daily APY Income | → Paid in TONCOIN

2 | APY Royalty Income | → Paid in TONCOIN

3 | Royalty Club Pool | → Paid in TONCOIN

4 | Binary Income | → Paid in TONCOIN

To boost community participation, extra incomes are given as:

Direct Income

Binary Income

Salary/Reward Income

These are paid in CTON Active Wallet

For now, all the above incomes will be distributed in CTON Coin. In the coming days, these incomes will be distributed in the native coin CTON of The Open Network Classic blockchain.

📌 Please read the full business plan carefully before joining

Staking Payment Structure

To activate any APY staking package:

75% in TONCOIN	**25% in CTON Active Wallet**	**10% extra in TONCOIN** as Admin Fee

For now, we will take 25% in CTON Active Wallet. In the coming days, we will start accepting the native coin CTON of the Open Network Classic blockchain.

Staking Payment Structure

To activate any APY staking package:

100% in TONCOIN

↘

10% extra in TONCOIN

as Admin Fee

↘

Principal Return Assurance →

TONCOIN CLASSIC (CTON) Allocation →

In case of any technical failure or issue, the principal amount is refunded in CTON (TONCOIN Classic)

Each participant receives CTON (TONCOIN Classic) equivalent to the package amount on the TON Classic Blockchain.
